EDUCATION

Bachelor of Science in Computer Science,
Mindanao State University – Iligan Institute of Technology

2021 – 2025

Awards/Organizations: **Cum Laude**, DEVCON Iligan, Computer Society (ComSoc), Silahis (Student Publication)

EXPERIENCE

Silahis Student Publication

Sep 2024 – July 2025

Software Engineer

Iligan City, Lanao del Norte

- Deployed a cloud-native publication platform using AWS services including EC2, S3, and Route 53. Configured infrastructure as code with Laravel Forge, reducing manual server maintenance by 50%.
- Developed a custom CMS using React and Laravel, enabling automated article publishing; improved the content delivery pipeline and ensured 100% of published articles were directly accessible to site visitors in real time.
- Implemented mobile-responsive user interface / user experience in React from Figma designs, improving front-end performance and user engagement across devices.

ChartLink (Freelance Project)

Aug 2024 – Feb 2025

Software Engineer

Iligan City, Lanao del Norte

- Constructed a scalable clinic workflow system using Supabase (auth, real-time DB, storage), boosting operational efficiency by 40%.
- Created a responsive TypeScript + Next.js front-end, resulting in faster load times 30% and enhanced UX for staff.
- Executed agile development processes and managed client feedback cycles, ensuring 100% on time delivery of features.

Quantum Computing Society of the Philippines

Feb 2024 – Nov 2024

Software Engineer Intern

Iligan City, Lanao del Norte

- Engineered a robust backend architecture utilizing Node.js and Express.js, resulting in a 50% reduction in server response time and enabling seamless integration of future RESTful APIs for enhanced scalability.
- Deployed the React-based front-end to Vercel, optimizing for performance, scalability, and seamless integration with upcoming back-end services.
- Coordinated requirements gathering and progress updates with stakeholders, resulting in on-time delivery and streamlined communication.

PROJECTS

Guideon – AI-Powered Learning Pathway Recommender: Built a full-stack intelligent assistant that recommends personalized learning paths using a locally hosted LLM (Llama 3 via Ollama), integrated with Django, PostgreSQL (pgvector), and React. Created hybrid filtering (collaborative + content-based) aligned with the Philippine Skills Framework (PSF). Achieved a CUQ usability score of 71.8 (SD = ± 11.7), indicating high user satisfaction.
